COFFEE

We don't like food that comes from big industries and not even coffee. Our coffee comes from **real fair trade**, it is **purchased directly from farmer families in South America and Africa by Michael Prem** and roasted in Vienna in the 9th district by Prem frischKaffee. Yes, because simply drinking coffee, we can change the world. But overall it tastes like red berries, vanilla and banana. If your expectation is a bitter and burned coffee, don't try ours !!
